bicarbonato di sodio serbios

Strengthener – Enhancer of plant defenses - sodium bicarbonate

Features

Food-grade purity (E500). Its use in agriculture enhances the plant's natural defenses by creating an unfavorable environment for the proliferation of fungal diseases (by altering the pH of plant surfaces).

Fields of application

It should preferably be used alone at a dosage of 0.5-1 kg/hl. Higher dosages may cause slight leaf burns or russeting on sensitive pome fruit cultivars, or roughness on table grapes. Do not use on Moscato grape varieties. Do not mix with copper-based products, soluble fertilizers, calcium chloride, or EC-formulated products.

COMPOSITION	Sodium bicarbonate (E500) Minimum purity: 99,5%
HAZARD CLASSIFICATION	The product is not classified as hazardous according to Regulation (EC) 1272/2008 (CLP)
FORMULATION	Soluble powder
PACKAGING	25 kg sack - Pallet with 42 sacks
