citobios 100

Nitrogenous organic fertilizer - Seaweeds extract in solid form

Features

Pure hydro-soluble powder extract of brown algae (*Ascophyllum nodosum*). It contains essential natural elements for the proper growth of the plant, readily assimilable through foliar and root uptake. When accompanied by a proper nutritional plan, it promotes the physiological balance of the plant, optimizing flowering, fruit setting, ripening, and lignification. It is crucial in case of stress from frost, drought, or hail; it enhances the plant's natural resistance to pest attacks.

Fields of application

Applicable to numerous crops, seeds, and turfgrass, and compatible with the most common pesticides and fertilizers available on the market. Avoid mixing with products containing glycols.

COMPOSITION	Organic Nitrogen (N): 1% Potassium Oxide (K_2O): 19% Betaine: 0,1% Mannitol: 4% Organic carbon (C) of biological origin: 20%
HAZARD CLASSIFICATION	The product is not classified as hazardous according to Regulation (EC) 1272/2008 (CLP)
FORMULATION	Scales
PACKAGING	1 kg sack - Box of 10 pieces 20 kg sack
